### IN FOCUS

#### Scaling Rainfed Water Management: A Collaborative Model for the Global South

*Dr. SS Reddy, Advisor - Agriculture, DAKSHIN, RIS*

Water scarcity and soil degradation are critical challenges affecting rainfed agricultural systems in the Global South. India, home to one of the world's largest rainfed agricultural landscapes, has developed a robust model for integrated water resource management. The successful interventions in the Bundelkhand region, India led by the International Crops Research Institute for the Semi-Arid Tropics (ICRISAT) and the Indian Council of Agricultural Research- (ICAR) with support from the Government of India and state Government, provide a scalable framework for addressing water stress and enhancing agricultural productivity. These interventions demonstrate an effective approach for ensuring food and water security while building system resilience, offering a valuable model for other regions in the Global South.

#### Global South Health Technology Assessment: Perspectives from ISHTA 2025

*Dr. Monika Kochar, Advisor Health DAKSHIN, RIS | Porismita Sharma, Intern, DAKSHIN, RIS*

International Symposium on Health Technology Assessment (ISHTA) 2025 was organised in New Delhi on 8th- 9th March, 2025 by the Department of Health Research, Ministry of Health and Family Welfare, in partnership with WHO India and the Centre for Global Development, where global experts were invited to explore how Health Technology Assessment (HTA) can improve healthcare decision-making. Healthcare systems in low- and middle-income countries (LMICs), particularly those in the Global South, struggle with a lack of resources, a high rate of disease, and disjointed policy responses. Many Global South countries lack

organized methods to evaluate the cost-effectiveness of healthcare interventions, in contrast to high-income countries where HTA is well-integrated.

### Role of India-Vietnam in Developing Global South Cooperation

Event Note | 19th March 2025

The Embassy of India, Hanoi and the Institute for South Asian, West Asian and African Studies (ISAWAAS) of the Vietnam Academy of Social Sciences (VASS) organized a conference on role of India and Vietnam in developing global south cooperation. DAKSHIN, as a platform for development solutions curated in the Global South by agencies of the Global South, participated in this international conference to discuss opportunities for India and Vietnam to work together for the Global South countries. DAKSHIN was represented by Atul Kaushik, GDC Fellow, Research and Information System for Developing Countries (RIS). India's Ambassador to Vietnam Dr. Sandeep Arya and the Director General of ISAWAAS Dr. Nguyen Xuan Trung set the stage for the proceedings by exhorting the participants to leverage India's role in creating a platform for South-South Cooperation (SSC) as a driving force for sustainable development, with Vietnam contributing good practices on efficiency and India on Digital Public Infrastructure, technology and climate change abatement.
